Services	42

The following licenses are required for the Simova document management solution.

Additional Information | Document Central

The Simova document management solution interacts with the Microsoft SharePoint or Azure Blob Storage as a repository. The Microsoft SharePoint or Azure Blob Storage environment must be licensed separately. The IT department of the final customer of the related partner will have to take care about it.

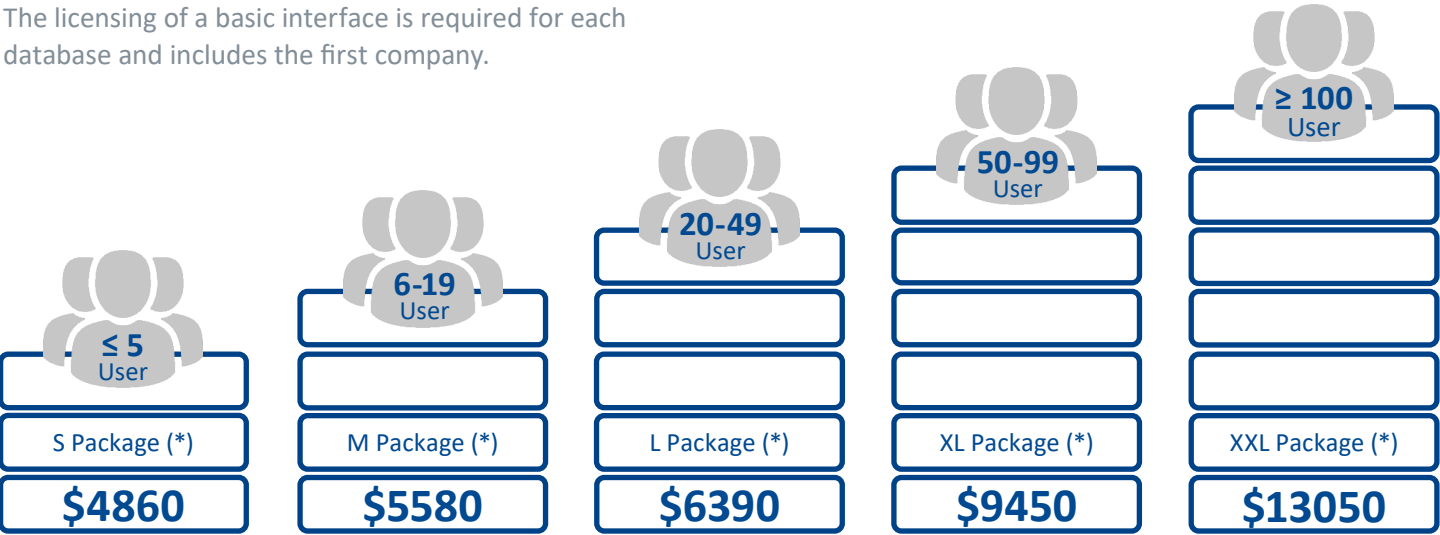

The following versions of Microsoft SharePoint are supported:

- Microsoft SharePoint Server (On-Premise)
 - » Version 2013 or higher
 - » Edition Standard, Enterprise and Foundations (2013)
- Microsoft SharePoint Online
 - » Integrated in Microsoft O365. Please check if your Microsoft O365 plan has SharePoint Online included
- Microsoft SharePoint is located in a hosted environment

Perpetual Licensing | Document Central

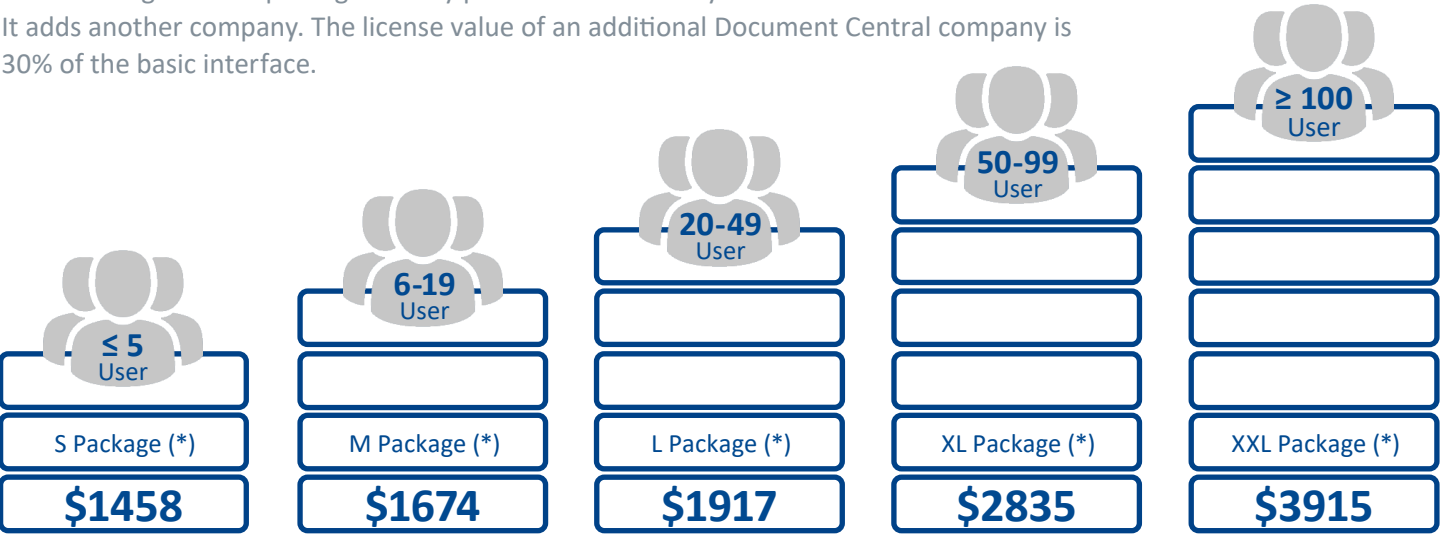

The licensing of a basic interface is required for each database and includes the first company.

All prices are net excl. of VAT.

Additional Companies | Document Central

The licensing of these packages is only possible in an already licensed database. It adds another company. The license value of an additional Document Central company is 30% of the basic interface.

All prices are net excl. of VAT.

(*) The update and maintenance fee is 2% of the license list value per month.

With the perpetual licensing the payment is due once excluding the update and maintenance fee.

The term “user” refers to the total amount of Full Users that are licensed in your database. The choice of the package does not depend on the number of users that are meant to use the solution.

If the amount of licensed users is exceeded, the differential amount of your current package and the newly applicable package will be charged in the following month. The update and maintenance fee will also increase according to the new user package.

All prices are subject to change within 30 days without notice.

The following licenses are required for Business Portals, the portal solution by Simova.

Additional Information | Business Portals

Business Portals requires the Microsoft Internet Information Services (IIS) service or an Azure subscription. The IIS service is a role of the Microsoft Windows Server. The Microsoft Windows Server must be licensed separately. With an Azure Subscription, the entire portal can be hosted in the portal provider’s Azure environment. The Azure Subscription is not included in the Business Portals prices.

Perpetual Licensing | Business Portals

The licensing of a basic interface is required for each database and includes the first company.

 ≤ 5 User	 6-19 User	 20-49 User	 50-99 User	 ≥ 100 User

\$1998	\$2295	\$2619	\$3861	\$5319

All prices are net excl. of VAT.

(*) The update and maintenance fee is 2% of the license list value per month.

With the perpetual licensing the payment is due once excluding the update and maintenance fee.

The term “user” refers to the total amount of Full Users that are licensed in your database. The choice of the package does not depend on the number of users that are meant to use the solution.

If the amount of licensed users is exceeded, the differential amount of your current package and the newly applicable package will be charged in the following month. The update and maintenance fee will also increase according to the new user package.

All prices are subject to change within 30 days without notice.

The following licenses are required for Document Dispatch, the electronic document dispatch solution from Simova. To be able to use the e-invoicing features, you need the XSD module (XML Schema Definition). This is already included in the price for new customers, existing customers can purchase a license extension.

Additional Information | Document Dispatch

Simova GmbH only offers the license and configuration of the Document Dispatch product. A fully pre-configured email server is required for implementation. This must be licensed and configured separately.

Perpetual Licensing | Document Dispatch incl. XSD

The licensing of a basic interface is required for each database and includes the first company.

\$1215	\$1485	\$1755	\$2430	\$3321

All prices are net excl. of VAT.

(*) The update and maintenance fee is 2% of the license list value per month.

With the perpetual licensing the payment is due once excluding the update and maintenance fee.

The term “user” refers to the total amount of Full Users that are licensed in your database. The choice of the package does not depend on the number of users that are meant to use the solution.

If the amount of licensed users is exceeded, the differential amount of your current package and the newly applicable package will be charged in the following month. The update and maintenance fee will also increase according to the new user package.

All prices are subject to change within 30 days without notice.

The following licenses are required for Phone Connect, the Simova computer telephony integration.

Additional Information | Phone Connect

Phone Connect establishes a connection between your Microsoft Dynamics 365 Business Central and Microsoft Teams or your TAPI-ready telephone system. The configuration of the respective telephone system has to be taken care of by the IT service provider of the final customer. The telephone system (TAPI if applicable) has to be licensed separately.

Perpetual Licensing | Phone Connect

The licensing of the basic interface is required for each database and includes the first company.

XL Package (*)

\$4761

All prices are net excl. of VAT.

(*) The update and maintenance fee is 2% of the license list value per month.

With the perpetual licensing, the payment is due once, excluding the update and maintenance fee.

Unlike in our other license modules, the term “user” does not refer to the total amount of Full Users that are licensed in your database. The choice of the package indicates the number of users that are meant to use the solution.

If you want to increase the number of CTI users in the future, you can easily add them by purchasing the additional users package which contains the required amount of CTI users.

All prices are subject to change within 30 days without notice.

The following licenses are required for Flow Path, the digital routing slip solution by Simova.

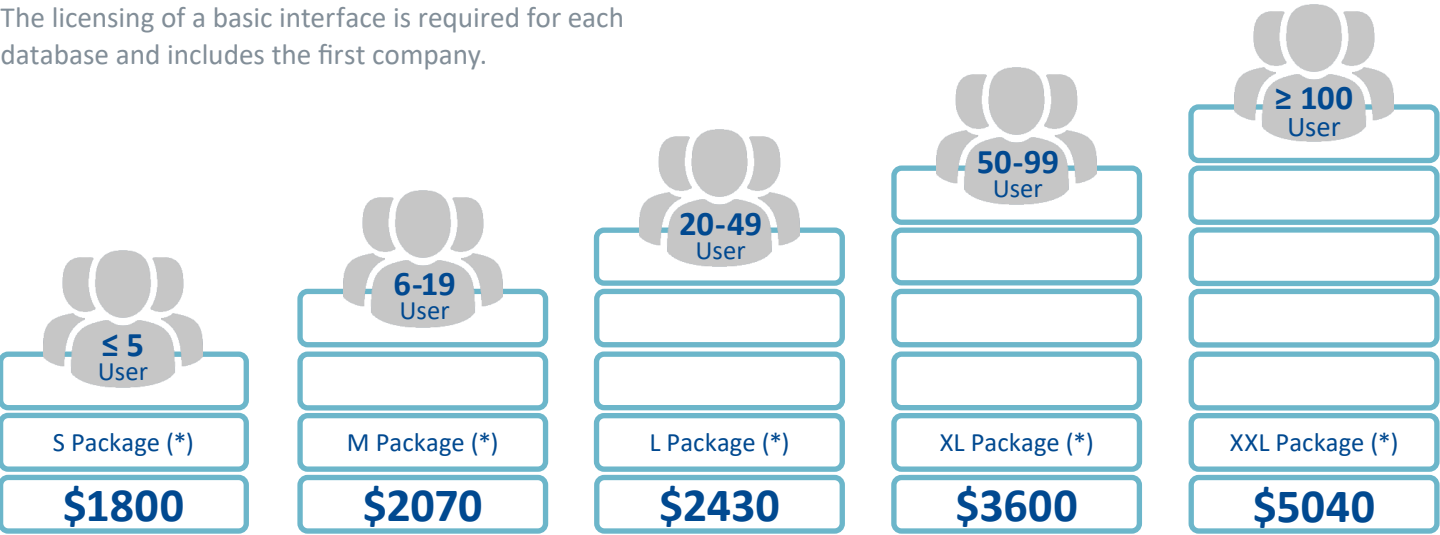

Additional Information | Flow Path

Simova GmbH only offers the license and configuration of the Flow Path product. If you want to use the notification function, a pre-configured email server is required.

Perpetual Licensing | Flow Path

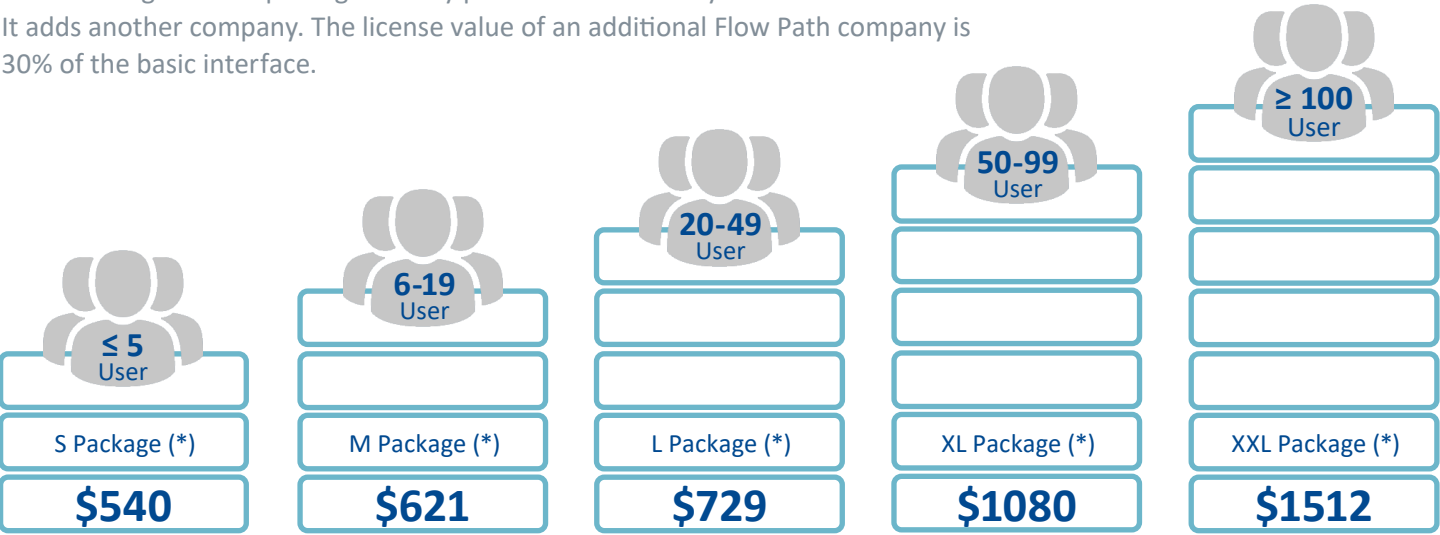

The licensing of a basic interface is required for each database and includes the first company.

All prices are net excl. of VAT.

Additional Companies | Flow Path

The licensing of these packages is only possible in an already licensed database. It adds another company. The license value of an additional Flow Path company is 30% of the basic interface.

All prices are net excl. of VAT.

(*) The update and maintenance fee is 2% of the license list value per month.

With the perpetual licensing the payment is due once excluding the update and maintenance fee.

The term “user” refers to the total amount of Full Users that are licensed in your database. The choice of the package does not depend on the number of users that are meant to use the solution.

If the amount of licensed NAV users is exceeded, the differential amount of your current package and the newly applicable package will be charged in the following month. The update and maintenance fee will also increase according to the new user package.

CONNECTOR APPS

The following licenses are required to connect Simova Extensions to each other or to a third-party tool.

The following Simova Connector Apps are available:

- Document Central for Dispatch
- Document Central for Portals
- Document Central for DC (Document Capture by Continia)
- Flow Path for DC (Document Capture by Continia)

Additional Information | Connector Apps

For all Simova Connector Apps, both basic products that are meant to be connected have to be licensed too. Document Capture has to be licensed by Continia.

Perpetual Licensing | Document Central for Dispatch

The licensing of the basic interface is required for each database and includes the first company.
